## Performing arts

The centre of performing arts at Ferrara University, the CTU (Centro Teatro Universitario) is a university service centre that organises workshops and laboratories for theatrical research. The centre is open to everyone who wants to gain a practical knowledge of theatrical languages. The CTU is not a drama school, but a pedagogical and educational experience through a workshop. The centre offers opportunities for experimentation that are not product-driven but aimed at developing self-expression and creativity through theatrical practices.

## University Choir

The University of Ferrara also offers students the opportunity to take part in its historical Choir, which consists of about forty choristers, mainly students, alumni and staff of the University of Ferrara. Since its formation the choir has performed annually as part of the University's Academic Year Opening Celebrations of the University with an exclusively Renaissance repertoire, enriched by some pieces of sacred music and the famous "Gaudemus igitur", the eternal symbol of university life. In recent years the choir has been invited to take part in festivals and concerts in different regions of Italy.

## University Library

The Ferrara Library Centre works in association with the Institute for Artistic, Cultural and Natural Heritage of the Emilia Romagna Region, the University and the Municipality of Ferrara. It is made up of 64 libraries, including the specialist university libraries, who share the same online catalogue, including bibliographic news, ancient books and multimedia material. Some university libraries contain very rare catalogues and digitalised manuscripts, hence integrating the education and research opportunities. All the libraries are open all week with full opening times.
