Economics, management and policies for global challenges

SMALL AND MEDIUM ENTERPRISES IN INTERNATIONAL MARKETS

IN ENGLISH
WHY CHOOSING SMES MASTER

Are you interested in small and medium-sized enterprises (SMEs)? Then this Master programme is for you.

This is a 2nd cycle degree entirely taught in English, forming graduates who are qualified to assume managerial or consultant positions in SMEs operating in international markets.

You will improve management abilities and skills in order to address international issues in small and medium enterprises. The main topics of SMEs in international markets aim at developing strong skills in the economics areas and performance, organizational and financial management.
STRONG POINTS

The Department of Economics and Management is firmly committed to provide international training and education. You can therefore take advantage of various opportunities for learning in an international context, such as:

- degree programmes entirely delivered in English;
- active teaching strategies in small groups in order to develop students’ abilities and skills (Problem-Based Learning, Project teaching, Workshops, Case studies…);
- possibility to combine thesis research and internship or project work;
- joint study programmes (double degree) with Kristianstad University (Sweden);
- 3-year PhD programme in Economics and management of innovation and sustainability - EMIS structured around 16 basic thematic areas related to the research interests developed in the Department itself;
- Ferrara School of Economics and Management diploma of excellence for the best students with international curricula;
- several projects for studying, training or dissertation research abroad (Erasmus+, Atlante, etc.);
- orientation and Tutoring service aimed at helping students be informed of academic choices and of academic community.

The Department of Economics and Management collaborates moreover with Firms and Public Institutions with the aim of developing research in many fields and offering you many chances to work in a stimulating and formative space.
ADMISSION

FREE APPLICATION
The Teaching Committee of the Department will evaluate the Bachelor’s degree and also the scientific background of each applicant, to make sure that they match the level of the courses. If the assessment is positive, you can enroll to the Master.
