

## **Global Value and Access Intern – Global Pricing team**

### **Scope:**

We are looking for an internship within the Global Pricing team in the Global Value and Access (GVA) function. GVA Team contributes to coordinating and steering global and multidisciplinary innovative strategies for Chiesi to excel in ensuring patient access to treatments, caring for the sustainability of the HC systems while supporting Chiesi business goals, through value demonstration and partnering with payers and key stakeholders. The intern will report to the GVA Global Pricing Head.

### **Main Activities:**

The intern will work in close collaboration with Global Pricing Analysts and will support/coordinate the Chiesi affiliates in the management of in-market portfolio pricing. In addition, he/she will be involved in the day-by-day activities of the GVA team and will work cross-functionally with Regions, Marketing and Consultancy teams. He/She will work in a global context, understanding cultural nuances in pricing strategies and the importance of ethical considerations in pharmaceutical pricing.

Key activities to be executed/supported will be:

- Assist Pricing Platform management: data load and user activation, Pricing Newsletter editing, Ticket management, collaborating also with technical and consultant teams.
- Respond to the specific needs of affiliates, including overlooking pricing documents, certificates and approval requests, verifying data accuracy and proper storage.
- Produce and review Global Pricing material (PPT, Word) for pricing procedures, guidelines and training
- Represent GVA in cross-functional Project Teams
- Monitor the evolution of industry trends, pricing methodologies, and regulatory changes.

**Education:** Master's degree in Life-sciences, Health Economics / Economics, Management Engineering.

**Languages:** English: Excellent level. Study experience abroad is a plus.

### **Technical Skills:**

- Good knowledge and understanding of Health Care policies of major EU markets
- Good knowledge of Microsoft Office applications (Microsoft Excel and Power-point in particular)
- Ability to analyze complex data sets, market trends, and pricing models.
- Strong quantitative skills to evaluate pricing strategies and financial implications.
- Project management skills.

**Soft Skills:** team player, strategic thinker, hands-on approach, attention to detail

**Location:** Chiesi HQ - Parma
