

SAFETY TRAINING LOW RISK

General Training and Specialized Training

(Italian Legislative Decree 81/2008)

"Don't forget safety training for your lab and internship: it's mandatory to proceed with your studies"

THE TRAINING PATH:

1. **Low Risk 8h E-learning:** mandatory for graduation and preparatory for accessing internships and proceeding with training only in the healthcare field.

Do you already have a valid certificate?

Check if it certifies:

- **16h** (High Risk) **or higher** (e.g., modules A and B ASPP/RSPP);
- or if...
- you **have already completed the safety course at Unife**, as part of another course of study;
- you are a **working student and possess a training risk safety training certificates**.

Training must be updated every 5 years.

Request recognition!

CLICK AND FILL OUT THE FORM!!

Or attend the

General Training and Specialized Training

CLICK HERE TO ACCESS THE COURSE!!

- GENERAL TRAINING 4h + final test = **GENERAL TRAINING CERTIFICATE**
- SPECIFIC TRAINING 4h + final test = **SPECIFIC TRAINING CERTIFICATE**

If you did not pass the tests, exhausting the 3 quiz attempts, you will only be able to try again starting from the first working day of the following month.

For this STEP, you should NOT register for the exams; they will not be visible on your personal page. There will be no official recording of this activity in your academic record.

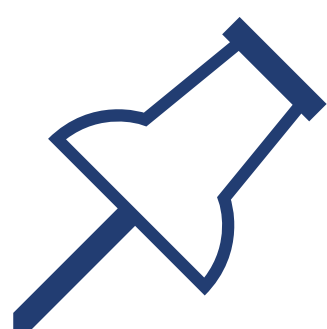

IMPORTANT!

Keep your certificates! They will be required for access to laboratories or to participate in internships.

The certificates obtained will be available in the section «Area studente>Allegati carriera»
