

Corporeal: Literary and Visual (De)formations of the Body

English Literature II MA Course in FOREIGN LANGUAGES AND LITERATURES

Academic Year 2017-2018

Obiettivi formativi

Gli studenti approfondiranno le loro conoscenze della letteratura e della cultura britannica in una prospettiva teorica, metodologica, diacronica e sincronica.

La trattazione di argomenti teorici e metodologici mira a mettere in luce la dimensione metaletteraria. Lo studio di specifici autori e testi è finalizzato a: inquadrare il contesto storico-culturale della Gran Bretagna e dell'Europa; utilizzare gli strumenti critici per indagare i testi letterari.

Particolare attenzione sarà dedicata all'acquisizione da parte degli studenti di abilità richieste in settori professionali quali l'insegnamento della letteratura e l'editoria letteraria, che richiedono la comprensione delle forme e dei generi letterari nella loro evoluzione attraverso la storia e in relazione ad altre espressioni culturali.

Students will widen their knowledge of British literature and culture from a theoretical, methodological, diachronic and synchronic perspective.

Discussion of theoretical and methodological topics will highlight the metaliterary dimension. The study of specific authors and texts is aimed at: presenting the historical and cultural contexts in Great Britain and Europe; applying critical tools for examining literary texts.

Particular attention will be devoted to the students' acquisition of skills required in job sectors such as literature teaching and publishing, which involve understanding how literary forms and genres have evolved through history and in relation to other cultural expressions.
